1 COMPLETION INSTRUCTIONS

This case report form records the data required by the protocol for study KLV-7701. Complete it in black ink or in the electronic system as instructed. Do not leave a required field blank: where a value was not obtained, record the reason. Do not overwrite an entry; strike through, enter the correction, and initial and date it. Every page carries the site number and the subject number, and no page carries the subject's name.

The header module below is completed on every page. Modules are printed in the order in which the assessments are performed at that visit.
